There is virtually no limit to how you can customize a Westech vinyl fence. From a concave open-picket to a privacy fence with lattice accent—and everything in between.

open-picket

An open-picket is the quintessential fence. Simple yet elegant, the picket fence has long been the symbol of a loving home, where memories are created to last a lifetime. The beauty of a Westech fence is guaranteed to last too—just like your most precious memories.

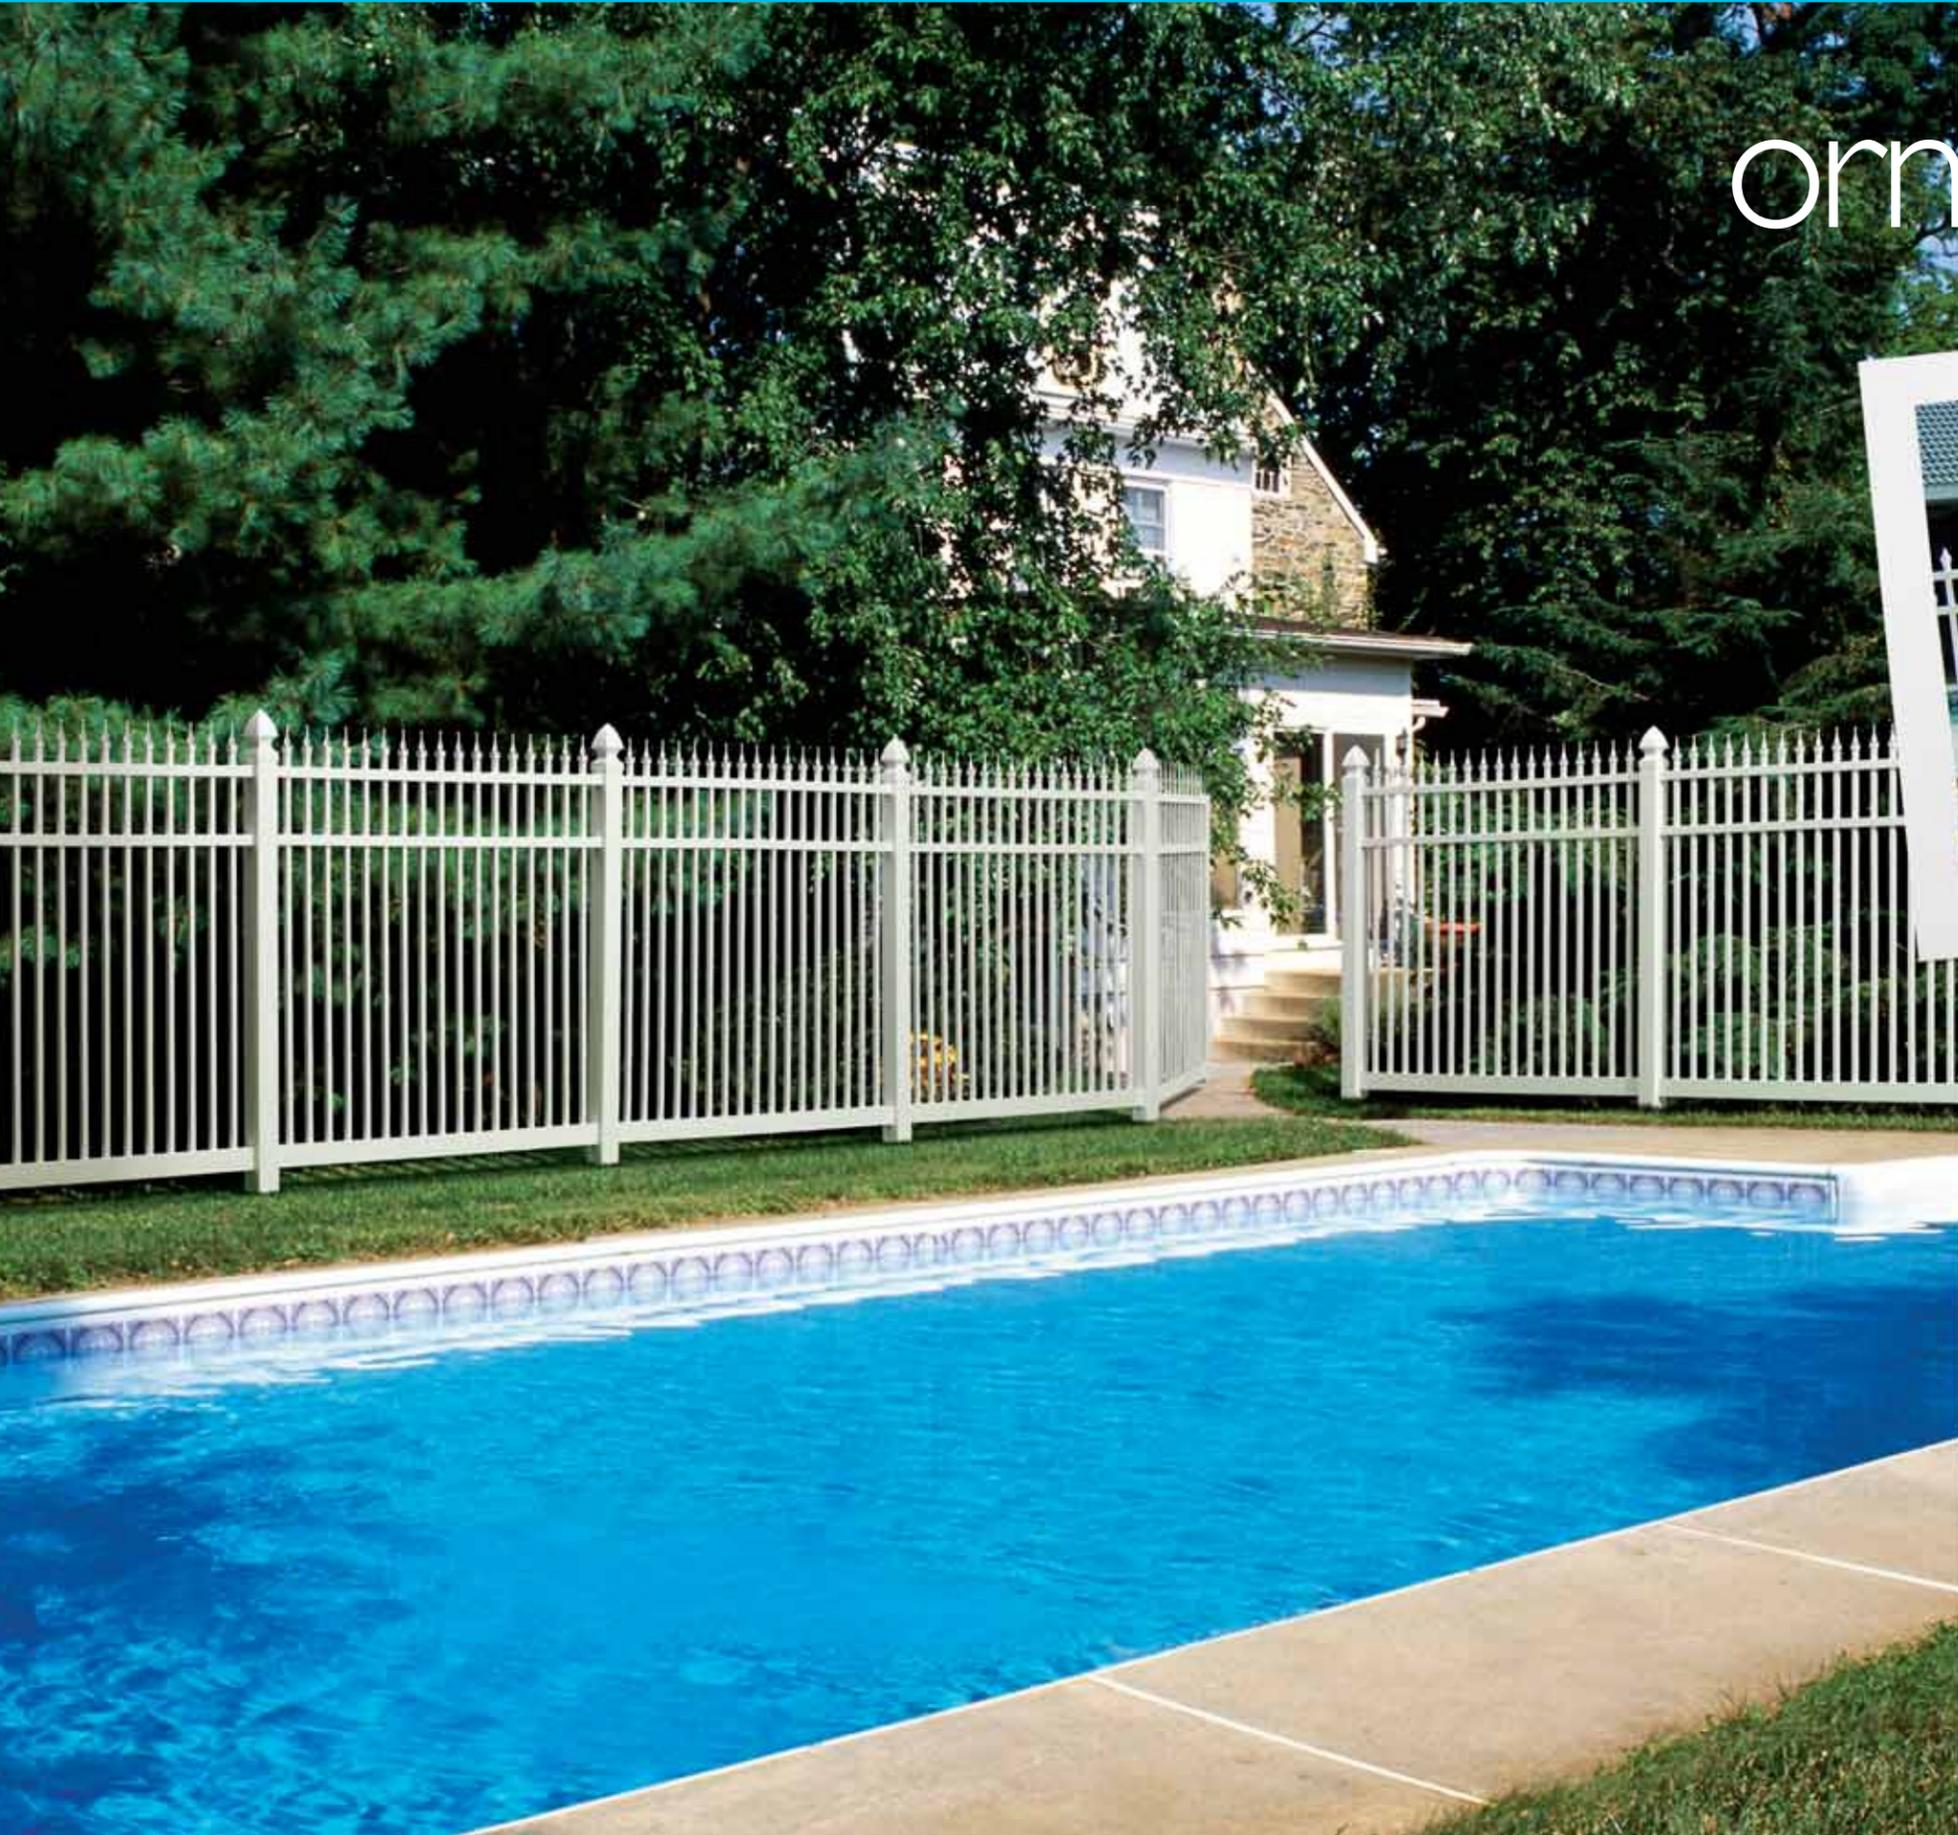

Accentuate your home with the clean lines and sharp angles created by a Westech closed-picket fence system. Top rails enclose the pickets to deliver a warm and elegant surround. Choose from a variety of pickets and post caps to create a fence that separates you from the crowd.

closed-picket

ornamental

For those who enjoy understated flair, Westech offers ornamental vinyl fencing with the old-world charm of wrought iron. The good news is, it will never rust. Install it and forget it. Customize your fence to your liking—let your imagination soar!

privacy

Create a cozy, private space with a Westech privacy fence system. What's more, Westech fencing allows you to be creative. Cap a solid fence with lattice panels for a little more light, or work with your installer to create a more contemporary look. Just use your imagination. Privacy never looked so good.

semi-privacy

Sometimes, you just need a “soft” barrier between onlookers and your pool or play area. If you live near a busy highway, your yard or patio may be exposed to the glances of travelers. A Westech semi-private fence system lets you enjoy air circulation and light, while diverting the glances of passersby. Choose from a variety of styles, or let your imagination run wild and create your own distinctive look.

ranch

Westech's ranch-style fencing delivers the stunning appearance of a classic rustic wood fence, without the need for extensive and expensive maintenance. From simple multiple rail designs to the classic crossbuck, your Westech dealer/installer can bring ranch-style appeal to your property, no matter how many acres your ranch includes.
